MYRINGOTOMY WITH TUBES

Home Care Instructions:

- Cleanse the outer part of the ear with a warm washcloth.
- DO NOT use cotton swabs or rinse out the ear at any time.
- You may use Tylenol® or Children's Tylenol® for ear discomfort as directed on the package.

Possible Side Effects:

- Nausea and drowsiness are common after general anesthesia.
- Drainage from the ear, especially after sleeping and/or if fluid was present at the time of surgery.
- Children may indicate that sounds are "too loud" (especially if they have not been hearing well prior to surgery).

Contact your Physician if:

- Pain is not relieved with Tylenol® or Children's Tylenol®
- There is drainage of pus or bright red blood.
- There is a fever above 101.5° or a lower grade fever for more than 3 days.
- You have any questions or concerns.
